## PERSONAL STATEMENT

I am a full stack developer trainee at CodeYourFuture with experience in designing, developing and deploying full stack web applications. This includes database modelling, front-end and back-end development using the PERN stack, cloud deployment with continuous integration and deployment (CI/CD), as well as GitHub and Trello for project collaboration. I am currently seeking opportunities in a team to improve my skillset and contribute my quota.

## EXPERIENCE

• **CodeYourFuture** (**CYF**)                                                                    Birmingham, UK
*Full Stack Web Developer Trainee*                                                    *Sept 2020 - Present*

◦ **CYF-Knowledge-CheckList** (https://cyf-knowledge-checklists.herokuapp.com/):  CYF-Knowledge-Checklist is a full stack web app for monitoring and tracking the progress of CYF trainees on a range of technical skills. It serves as a management platform for technical mentors and CYF administrators for evaluating trainees and managing feedback. I led the database modelling and backend development using postgresql, node and express. I also implemented user login management with bcrypt and led colleagues in daily stand ups and sprint runs to ensure timely delivery of the project. The app is deployed on Heroku with database provisioning and CI/CD integration.
◦ **Baby-Names-Picker** (https://cyf-aaokunade-baby-names.netlify.app/):
Baby-Names-Picker is a web application for selecting and storing popular names of babies. I built the app with React.js, deployed it on Netlify and integrated the CI/CD pipeline.
◦ **Countries-Display** (https://cyf-aaokunade-countries-react.netlify.app/):
Countries-Display is a web application with functionalities for searching world countries. I built the app with react.js and deployed it on Netlify.

• **Teach the Teachers** (**TripleT**)                                                          Edinburgh, UK
*Early Childhood Educator*                                                                   *Jan 2018 - Present*
◦ **Website Development**: Participated in developing TripleT website to enable wider outreach for attracting more students and managing lessons delivery.
◦ **Curriculum Development**: I led the development of robust educational curriculum that incorporates dynamic learning experience for students and enable feedback loop for improvement.

• **Dalmo Academy**                                                                               Bristol, UK
*Head of Academic group*                                                                    *Nov 2019 - Aug 2020*
◦ **Curriculum Development**: Led the development of module and yearly learning outcome specifications. Develop assessment criteria and evaluate students accordingly.

• **University of Edinburgh**                                                                   Edinburgh, UK
*Estate Management Officer*                                                                 *March 2017 - Aug 2019*
◦ **Estate Management**: Responsible for the management and upkeep of properties on the University of Edinburgh Campus.

## EDUCATION

• **Ladoke Akintola University of Technology, LAUTECH**                       Ogbomoso, Nigeria
*Bachelor of Technology (B.Tech) in Pure and Applied Chemistry*              *Sept. 2008 – June. 2014*

## TECHNICAL SKILLS

• **Languages**: Javascript, React, Node, Express, SQL, Git
  **Technologies**: GitHub, Visual Studio Code, NPM Restful API, Postman, Netlify, Heroku

## AWARD AND INTEREST

• **Award**: 1st Prize Winner of the 2004 Lagos State Science Quiz Competition
• **Personal Interest**: Passionate Cook/ Avid Reader/ Teaching Volunteer
